DETAILED ACTION

Election/Restriction

1. Claims 1-7, 11-15are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made without traverse in Paper No. 11.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the taps included in the delay line, the first demodulator for demodulating one of the L1 and L2 signals with a non-delayed version of the known code, a second demodulator selectably connectable to any one of the taps of the delay line for the modulating the other of L1 and L2 signals with a delay version of the replica of the known code, a switch for selectably switching the other of the received L1 and L2 signals and the one L1 and L2 signals, as recited in claims 8 and 16, the first demodulator for demodulating one of the L1 and L2 signals, a second demodulator selectably connectable to any one of the taps of the delay line for the modulating the other of L1 and L2 signals with a delay version of the replica of the known code, a first integrator for integrating the demodulated signal, a second integrator for integrating the second demodulated signal, a correlator for correlating a result of the integration steps, a phase adjuster for adjusting the phases of the locally generated code, a

comparator a combiner, a first and second accumulator as recited in claims 9 and 20, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). The specification needs to be amended to provide support for the limitations of: the first demodulator for demodulating one of the L1 and L2 signals with a non-delayed version of the known code, a second demodulator selectably connectable to any one of the taps of the delay line for the demodulating the other of L1 and L2 signals with a delay version of the replica of the known code, a switch for selectably switching the other of the received L1 and L2 signals and the one L1 and L2 signals, as recited in claims 8 and 16, the first demodulator for demodulating one of the L1 and L2 signals with a non-delayed version of the known code, a second demodulator selectably connectable to any one of the taps of the delay line for the demodulating the other of L1 and L2 signals with a delay version of the replica of the known code, a first integrator for integrating the first demodulated signal, a second integrating the second demodulated signal, a correlator for correlating a result

Art Unit: 2631

of the **integration steps**, a **phase adjuster** for adjusting the phases of the locally generated code, a **comparator** for comparing the absolute value of the integrated signals, a **combiner** for combining the values of the integrated signals, a first and second accumulators for accumulating output of the combiner for each of the L1 and L2 signals, as recited in claims 9 and 20.

Claim Objections

4. Claim 8, line 15, "first" should be "the second demodulator", line 16, "second" should be first". Claim 16 line 13, "other" should be "one" and line 14, "one" should be "other".

Appropriate correction is required.

Allowable Subject Matter

5. Claims 8-10 and 16-21 are allowed. Note that claims 8 and 16 must be amended in such a way to overcome the objection sets forth above.

Conclusion

- 6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kohli et al, US patent No. 6,400,753, discloses correlators elements 74 summer 84 delay element 78 code generator 76.
- 7. Any response to this action should be mailed to:

Art Unit: 2631

Commissioner of Patents and Trademarks

Washington, D.C. 20231

or faxed to:

(703) 872-9314

(for informal or draft communications, please label "PROPOSED" or "DRAFT")

Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive, Arlington. VA., Sixth Floor (Receptionist).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean B. Corrielus whose telephone number is (703) 305-4023. The examiner can normally be reached on Monday-Thursday from 7:00 A.M. to 5:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham, can be reached on (703) 305-4378.

Art Unit: 2631

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3800.
